Status: Tower

Victoria Cross OSD
Builder: Lendlease
Status: Tower

Ozone Cronulla
Builder: Versatile
Status: Watertight

Precinct 75
Builder: MN Builders
Status: Demolition

Track projects on demand

Asbuilt Club is a construction intelligence platform that shows you what's actually being built across Australia - not just what's been approved or proposed.

We track live construction activity, not just when a project has started or finished.

With the ability to tailor your search and provide custom reports by project stages, crane status, scale, and delivery progress, construction professionals can make better decisions, faster.

If your work depends on:

- finding the right projects
- targeting the right builders
- timing your approach correctly

Asbuilt Club replaces guesswork with clarity.

HOLM APARTMENTS RAINBOW BEACH	Basement	Gold Coast	Chapter Two	Groupline Constructions	\$110.00	12	3	Not installed	15/09/2025

Quit chasing the wrong jobs.

For Subcontractors & Suppliers

Focus your sales on builders that match your business - filter by excavation, structure, cranes up, topped out & more - nationwide.

For Builders & Developers

Track competitor pipelines and see who's building in your local market. Understand what's actually being built - not just what's been lodged.

For Consultants

Whether you work front-end, back-end, or mid-construction, get into the right projects at the right time using data that is updated weekly, not annually.

For Government

Monitor housing supply targets and infrastructure load with real-time snapshots of development activity.
